

Ryan's Well Foundation

Ashanti-Region, Ghana WASH Project Update Report (2026/2027).

Overview

The 2026/2027 Ghana WASH Project continues to make significant progress across seven beneficiary institutions in the Ashanti Region of Ghana. The project supports ***one healthcare facility, five schools, and one rural community***, advancing safe water access, hygiene infrastructure, and community-level WASH governance.

“Six (6) deep boreholes have been successfully constructed across the six distinct communities.”

The initiative is strengthening local capacity through community mobilization, WATSAN Committee formation, School Health Committee activation, and ongoing hygiene training.

Key Milestones Achieved

Water Infrastructure Development

- Six deep boreholes completed across all beneficiary sites.
- Five overhead water reservoir stands installed, with one additional platform under construction.
- Materials fully conveyed to all project locations for continued construction.
- Handwashing infrastructure (sinks and Afredev pump platforms) under active development.

Community Engagement & Capacity Building

- Continuous supervision and safety monitoring at all construction sites.
- Community mobilization underway to ensure stakeholder participation.
- Establishment of WATSAN Committees and School Health Committees progressing.
- Handwashing training mobilization ongoing for students, teachers, and community members.

“Effective supervision and community mobilization efforts... and the establishment of WATSAN and School Health Committees are actively underway.”

Project Scope

The project spans three districts within the Ashanti Region—Adansi Akrofroum, Amansie West, and Adansi South—serving a combined population of **83,932 people**.

“The 2026/2027 project has impacted one healthcare institution, five educational facilities, and one community, located in the Ashanti Region of Ghana.”

Beneficiary Institutions

1. Akrofroum Freboye CHPS (Health Center)
2. Akrofroum Freboye Basic School
3. Kwame Nkyi Abiram D/A JHS & Primary School
4. Oyan Asarekrom D/A JHS
5. Mem Aboagyekrom D/A JHS
6. Ayirebikrom Bombesea D/A JHS
7. Nsiana Akufu Adosu Community

Beneficiary Breakdown & Population Served

No.	Site / Institution	District	Population Served	Status
1	Akrofroum Freboye CHPS	Adansi Akrofroum	23,237	Deep well constructed
2	Akrofroum Freboye Basic School	Adansi Akrofroum	219	Deep well constructed
3	Kwame Nkyi Abiram D/A JHS & Primary	Amansie West	503	Deep well constructed
4	Oyan Asarekrom D/A JHS	Amansie West	657	Deep well constructed
5	Mem Aboagyekrom D/A JHS	Amansie West	571	Deep well constructed
6	Ayirebikrom Bombesea D/A JHS	Amansie West	756	Deep well constructed
7	Nsiana Akufu Adosu Community	Adansi South	527	Deep well constructed
Total Population Reached			83,932 people	

Current Status & Next Steps

Ongoing Activities

- Completion of the remaining reservoir platform.

- Installation of Afredev hand pumps and handwashing stations.
- Finalization of WATSAN and School Health Committee training.
- Full rollout of community hygiene and handwashing education.
- Continued monitoring to ensure construction quality and safety compliance.

Upcoming Priorities

- Commissioning of all boreholes and water systems.
- Community sensitization on water management and sustainability.
- Integration of WASH education into school routines.
- Documentation and reporting for final project evaluation.

Conclusion

The Ghana WASH Project (2026/2027) is progressing strongly, with major water infrastructure already completed and community systems being strengthened. The project is on track to deliver long-term, sustainable access to safe water and improved hygiene practices for nearly **84,000 people** across the Ashanti Region.

Ryan's Well Foundation remains committed to supporting resilient WASH systems that empower communities, improve health outcomes, and enhance educational environments.
